

## PETITIONS OUT IN EVERY COUNTY

Call Upon Senator Whitehead to Become Candidate for Governor.

## CLUB AT PORTAGE

The Paper is Generally Signed by Leading Republicans of Appleton.

## WAUKESHA IS IN LINE

~Milwaukee, Jan. 17.—In every county of the state petitions are in circulation which, when signed, will call upon Senator John M. Whitehead to become a candidate of the Republicans of the state for governor. What ever may be said in opposition to his candidacy, if he decides to enter the field, the claim cannot be made that he stands as the candidate of any selfish interest, for among party leaders, almost to a man, the general request has been made that he consent to the use of his name.

This movement represents something more than opposition to LaFollette. It is the verdict of the conservative republicans of Wisconsin, who, after considering all matters pertaining to the trouble, have come to the conclusion that he present executive does not subserve the best interests of the people and party. They do not take this step as politicians dissatisfied for the time being with the conduct of the men who exercise control, but as republicans realizing the party necessity which calls for the adoption of no temporizing methods.

**Marquette Favors Whitehead.**  
Marquette, Wis., Jan. 17.—A canvass of Marquette county, which has been made and which is confirmed by the statement of almost every republican supervisor who is attending the sessions of the county board here, shows that the sentiment is strongly in favor of selecting some other man besides Governor LaFollette for the gubernatorial candidate next summer. Many of the leading republicans of the county towns are outspoken in favor of Senator Whitehead, believing that his policy of equalizing taxation is the most feasible and practical plan.

**Everybody Signs in Appleton.**  
Appleton, Wis., Jan. 17.—The petition which is being circulated in Outagamie county, asking John M. Whitehead of Janesville to become the republican nominee for governor, is being received with general favor by the citizens. A. M. Spencer, who has charge of the work in this district, says as yet no republican who has been requested to sign the petition has refused to do so. Reputable business and professional men of all classes are affixing their signatures, among the signers being many ministers.

**Portage Whitehead Club.**  
Portage, Wis., Jan. 17.—The John M. Whitehead club of Portage was organized last night, and in the membership enrolled are represented the most prominent and influential citizens of this city. Leading men commercially and professionally are either upon its list of officers or the executive committee.

The leading spirit of the meeting and the man who did more toward perfecting the organization than any other, and the one selected as chairman, L. S. Dreese, acted as chairman. The meeting throughout was enthusiastic.

**Popular at Waukesha.**  
Waukesha, Wis., Jan. 17.—Petitions asking Senator John M. Whitehead to permit the use of his name as a candidate for governor were placed in circulation here today. Senator Whitehead has a considerable number of acquaintances in Waukesha, and the movement in his behalf is meeting with a cordial reception. The petitions have been numerously signed, and one of these, which has been presented to sixty-six republicans during the day received the signatures of sixty.

**Ardent Support at Oshkosh.**  
Oshkosh, Jan. 17.—A call has been received for a meeting of the friends of Senator Whitehead, and a meeting of representatives of the party in the Sixth congressional district will be held soon. The chairman for this district is Daniel E. Frost of the law firm of Brennan & Frost of Stevens Point. Mr. Frost is the brother of Fred J. Frost of Almond, assemblyman from Portage county. The latter has been a strong LaFollette man but is now opposing him.

The following of LaFollette has grown smaller steadily in this vicinity and the desire for a change has developed as rapidly. It is certain that the candidacy of Senator Whitehead will receive ardent and generous support in this county and district.

## VACCINATION IS THE ONLY REMEDY

Smallpox Conditions of the State Discussed by the State Board of Health Today.

Madison, Wis., Jan. 17.—(Special)—Small-pox conditions in the state came up for active discussion at the semi-annual meeting of the state board of health, held here this afternoon. There are many cases scattered over the state, mostly light except in the northern part. Secretary Wingate says vaccination is the great remedy,

it being difficult to maintain a strict quarantine, as a doctor is not usually called until the disease is developed and others exposed. Governor LaFollette will be asked to make a large allowance from the contingent fund for the suppression of the disease.

Secretary Wingate does not agree with the theory of Dr. Roberts of Janesville that tuberculosis is not transmittable from cattle to humans, and says the board has no funds available for experiments along this line.

## BOTTLE GOES 10,000 MILES

Missive Thrown in River in Illinois Found Off California

Los Angeles, Cal., Jan. 17.—Jesse Wilson yesterday at Santa Monica fished from the Pacific a bottle containing a message which came from Central Illinois, around Cape Horn. The message was written by Walter Roeder of Bloomington, Ill., and after being enclosed in a bottle, was thrown into the Mackinaw river. It is supposed to have worked its way into the Atlantic ocean via the Illinois and Mississippi river and continued its way-tossed journey until, nearly two years after its start, it bobbed up on the coast of Southern California, 10,000 miles from home. Mr. Roeder in answer to a telegram, confirms the message as his own.

St. Louis, Jan. 17.—A general revision of the names of the exhibit buildings which form the main picture of the Louisiana Purchase Exposition has been decided on. The names used for the big buildings up to the present have been merely tentative. They were marks of identification for the architects rather than allotments of space to exhibit departments. As arranged, the building with their respective dimensions expressed in feet will be as follows: Mines and metallurgy, 525x750; liberal arts, 525x750; textiles, 600 x525; manufacturers, 525x1,200; electricity and machinery, 600x525; varied industries, 525x1,200; machinery 525x800; transportation, 525x1,000; agriculture, 700x2,000.

The contract for the power plant of the Louisiana Purchase Exposition was today awarded to the Westinghouse Electric company of Pittsburgh, Pa. The plant is to be 10,677 horsepower and will be the largest plant ever put into an exposition.

## COLOMBIA NABS A CHILIAN SHIP

Takes Forcible Possession of the Steamer Lantoro at Colon.

## GUNS TO MOUNT IT

An Attack on the Insurgent Fleet—Venezuela Watching Gen. Matoz

## WAR RUMORS PLENTY

Colon, Jan. 17.—The government has seized and is arming the Chilean steamer Lantoro. The steamer Chuculto has been purchased from the steam navigation company. Three large cannons were sent to-day to Panama from the gunboat General Pinzon to arm the Lantoro. The Pinzon has gone to Nombre de Dios and Cocle to bring troops to Colon. The Lantoro has a speed of from twelve to fourteen knots. The Chuculto will mount one gun. Her speed is estimated at sixteen knots. The Colombian government fleet, therefore, is now larger and faster than the enemy's fleet.

The General Pinzon sailed from here this morning, skirting the coast in search of idle troops. On the return of the Colombian gunboat Boyacas to Panama to-morrow with troops from Chiriqui it is expected that General Alban will attack the revolutionary fleet.

**Venezuela Watching Matoz.**  
Caracas, Venezuela, Jan. 17.—General Matoz, the revolutionary leader, is master at sea, for President Castro's fleet does not dare attack the Libertador. The government troops, however, watch the coasts so well that the landing of arms and ammunition is nearly impossible. The only important successful landing took place Jan. 9, near Tucupan, where much ammunition and General Hiera were safely debarked. According to the last reports received here regarding the whereabouts of the Libertador, she was recently at the Dutch island of Aruba. She passed Jan. 9 in view of La Guayra. The impression which prevails here is that the revolution is not progressing. The difficulties encountered in the attempts made to pass arms and ammunition through the government lines render the success of General Matoz problematical. Generals Mendoza and Fernandez, the insurgent leaders, notwithstanding their lack of resources, are not yet crushed. The reports of uprisings at Guayana and other points remain unconfirmed.

## LIBERTADOR IS SIGHTED

Williamstad, Island of Curacao, Jan. 17.—The Venezuelan revolutionary steamer Libertador (formerly the Ban Right) was sighted Tuesday evening near Cape Codera, east of La Guayra. It is supposed that she landed arms there. Numbers of insurgents are in the field in that vicinity.

Baltimore, Md., Jan. 17.—Mother Margaret, superior of the Sisters of Charity of the United States, is critically ill at Emmetsburg, Md.

London, Jan. 17.—A movement to conciliate the opposing factions in the contest for the liberal leadership in parliament is again balked. Roseberry has rejected the scheme whereby he would assume the leadership in the house of lords while Campbell Bannerman would continue as leader in the commons.

## FIGHT ON THE CUBAN TARIFF

Tobacco Men Will Oppose Any Reduction Proposed by Congress.

## PROTEST SENT IN

Janesville and Milwaukee Tobacco Dealers Take Action in the Matter.

## ALL ARE INTERESTED

Milwaukee, Jan. 17.—A meeting of twenty of the most prominent wholesale tobacco and cigar manufacturers of the city was held at the Plankinton house yesterday afternoon, at which it was decided that radical action must be taken to prevent the passage of that section of the tariff bill which contemplates a reduction of the 50 per cent. in the tariff on manufactured articles in tobacco imported from Cuba.

The ways and means committee of the house will meet next Tuesday to listen to protests from tobacco and cigar manufacturers in the country, and it was decided that as Wisconsin is one of the largest tobacco states in the country, that it should be represented.

Accordingly it was voted to send George J. Engelhardt of Engelhardt Brothers, leaf tobacco manufacturers, and Hugo Frohbach, cigar manufacturer. They will leave Milwaukee on Saturday to meet the other manufacturers in the country, who will appear as interested parties before the ways and means committee next Tuesday.

George J. Schuster presided at the meeting which had been hastily called, and it was the consensus of opinion that no greater calamity could befall the cigar manufacturers of the city and state, as well as the wholesale tobacco merchants, than to have this section of the tariff bill passed.

## TARIFF ON CUBAN TOBACCO.

Resolutions Adopted by the Janesville Dealers' Association

The following is the text of the resolutions adopted by the Janesville Leaf Tobacco Merchants' association at a meeting held on Jan. 15, 1902:

"Whereas, a reduction of the tariff on Cuban tobacco and the manufacture of cigars is being vigorously urged before the Ways and Means committee of the house of Representatives, ostensibly for philanthropic reasons but in reality for the benefit of American capitalists, supporters of the measure claiming it will benefit the people of Cuba; and

"Whereas, we believe in the truth of the old adage, 'Charity begins at home,' that congress should care for and guard the interests of the tobacco growers and cigar manufacturers of the United States, rather than those of Cuba; and that the growers of Wisconsin who raise annually about 150,000 cases, or 45,000,000 pounds of tobacco, about 35 per cent. of which is used for fillers, would suffer severe and irreparable financial loss, as the proposed reduction in tariff would bring Cuban and Wisconsin fillers in competition to the detriment of the Wisconsin product, which is inferior in quality; that the basis of the prosperity of the domestic tobacco industry is the cigar manufacturer and any reduction in the tariff on cigars made in Cuba would injure him directly and the tobacco grower indirectly; that the quality and reputation of Cuban tobacco is such that notwithstanding the present tariff the entire product, raw and manufactured, can be readily sold at an enormous profit, as it has been in the past; that a reduction in the tariff would not benefit the Cuban growers beyond increasing the production there, necessarily lessening it here; that all interested should inform their representatives in congress of the facts and urge the defeat of the proposed law. Now, therefore, be it:

"Resolved, That we oppose any reduction in the tariff on Cuban tobacco or cigars manufactured in Cuba as it would irreparably injure the domestic grower and cigar manufacturer and benefit the tobacco trust only; that the committee on Ways and Means of the House of Representatives and our representatives in both branches of congress should be informed of the detrimental effect said proposed legislation would have on the domestic grower and cigar manufacturer; and that all members of this association should attend the meeting of the growers of and dealers in leaf tobacco and manufacturers of cigars to be held in the senate chamber of the capitol in Madison, Friday, January 24, 1902, called for the purpose of considering and protesting against said proposed legislation."

## PASSENGER TRAIN WAS HELD UP

Seven Masked Men Open Safe on an Express Car on the Kansas City & Southern.

Fort Smith, Ark., Jan. 17.—The south-bound Kansas City Southern passenger train was held up last night at 11 o'clock half a mile north of Spiro, I. T., by seven masked men. The express and mail car were entered. The local safe in the express car was opened, but nothing secured from it. The robbers tried to open the through safe but failed. They then rifled the mail car and it is said secured a quantity of registered mail. A report from the scene of the robbery, which is fifteen miles from here, says that United States marshals are scouring the country in search of the robbers. Three suspects, miners, have been arrested and taken to Poteau, I. T. Railroad and express officials decline to state how much booty was secured. It is stated, however, that the robbers got away with \$2,000.

## BELIEF THAT BOERS ARE AFTER PEACE

Negotiations Reopened Cause a Rise in South African Securities at London.

London, Jan. 17.—A strong belief prevailed in financial circles here late today that negotiations for peace had been reopened between the leading Boers and the British government. South African stocks rose in sympathy with the reports.

The exact nature of what was going on was not known, but it was learned that leading Boers had indirectly approached the government, protesting against the appropriation of farms in the Transvaal and Orange River colonies by British settlers, which system is now being rapidly pushed, and that strong influence had been brought to bear on the Boer leaders to save at least a vestige of property for their followers.

Whether what is passing today between the Boers and the British government can be termed peace negotiations or what will be the result can only remain a matter of speculation for the present. The Stock Exchange evidently takes a hopeful view of the outcome.

## KOHLSAAT QUILTS RECORD-HERALD

Victor Lawson is in Control—Frank B. Noyes Will Now Have Direct Management.

Chicago, Ill., Jan. 17.—H. H. Kohlsaat, for many years a strong influence in journalism and national politics, retires from active newspaper work today. In this morning's issue of the Record-Herald the announcement of this appears. He says that he has turned over the editorial direction and the business management of the paper to Frank B. Noyes, formerly of the Washington Star. This is the formal announcement of what caused a sensation today.

It is understood that Victor F. Lawson, editor and proprietor of the Daily News and owner of the Record-Herald, will be the guiding influence in the Record-Herald by reason of his ownership of bonds in the sum of close to \$1,500,000 which were issued to him by Mr. Kohlsaat in payment for the Record.

Mr. Noyes, who is a newspaper man of large experience, will appear as the responsible director of the paper. He has for years been a close friend of Mr. Lawson, who thinks much of his ability as an editor and publisher.

## FIERCE BATTLE IN GOLD MINE

Shaft Was Being Robbed of the Most Valuable Ore.

## A TRAP WAS LAID

Sixty Tried Men Caught Pirates at Their Work and Fired on Them.

## FOUGHT IN DARKNESS

Denver, Jan. 17.—With the darkness punctuated with the flashes from the mouths of fifty rifles, a fierce battle was fought before dawn this morning in the bowels of the earth 408 feet down in the workings of the Independence Mine at Cripple Creek.

For months the management had suspected that the mine was being robbed of its choicest treasure in the shape of sylvanite ore, through collusion with the working force. Every means was employed to check the pilagers, scores of detectives were scattered among the men, and the miners were compelled to change their clothing both on ascending and descending the mine and submit to a physical examination.

Yesterday the truth leaked out and preparations were made to trap the ore pirates.

**Awaked the Pirates.**  
Sixty tried men were smuggled into the 400 foot level and concealed in an abandoned slope. At the change of shifts at four o'clock the officers began to expect thieves. In a few minutes shadowy forms could be seen softly creeping toward a rich slope. They knew exactly where to go, and quickly began knocking down ore.

The watchers crawled slowly toward the workers, and were within thirty feet when an outpost discovered the disturbers and gave the alarm. Lights were instantly extinguished. The officers called for surrender, but the robbers, after putting out the lights, responded with a fusillade of bullets that whistled in dangerous proximity to the heads of the besieging force. The latter retorted in similar strain, and for ten minutes the cavernous recesses rang with volley after volley and the cries of the wounded.

**Fought in Darkness.**  
Nothing could be seen for the display of light on either side would have implied sudden death, as the robbers were as expert with their rifles as the officers who sought their capture.

In half an hour the firing seemed to lag, and the officers assumed that the pirates were retreating, but still thought it discreet to remain under cover. In an hour no response came to the stray shots, and the detectives concluded to come to the surface to examine their injuries and secure a fresh supply of ammunition.

Lee Glockner, foreman of the Independence ore house, suffered the worst of the attacking party, having stopped two bullets, both arms being crippled and five ribs broken by falling into a sink hole while crawling away during the fight.

## PRESIDENT GIVES HOPES TO SCHLEY

He Will Consider the Exceptions Made by the Admiral to Board of Inquiry Verdict.

New York, Jan. 17.—President Roosevelt has changed his mind in regard to the disposition of the Schley case, says a Washington dispatch to the Herald. In order to forestall the charge that he was unwilling to consider the exceptions of the rear admiral to the findings of the court he has decided to defer action until they have been submitted and he has considered them.

In the investigation which the president is making he has the legal assistance of Attorney General Knox. The latter has taken a deep interest in the Schley controversy and is familiar with its history. Since Rear Admiral Schley appealed to the President for a revision of the findings of the court he has given its closer consideration than he had prior to this development. The president will undoubtedly consult the attorney general when the bill of exceptions under preparation by Messrs. Rayner and Teague is filed by the rear admiral.

## NEWS AND GOSSIP FROM LINE CITY

Mrs. M. J. Mulville Issues a Letter Relating to the Mulville-Hart Receivership.

Beloit, Wis., Jan. 16.—Wm. G. Schultz, the carpenter in the employ of Cunningham Bros., who fell from the roof of a residence on which he was working five days ago and sustained serious injuries died at the city hospital Thursday morning from lockjaw which set in as a result of the wounds sustained to the scalp and skull. The disease was of very short duration scarcely twenty-four hours elapsing before the first symptoms appeared until the death of Mr. Schultz.

The accident which resulted in the death of Mr. Schultz happened while he was at work on the residence of Wm. Beath on Fifth street last Friday. He started to turn a corner and took hold of a loose piece of lumber to support his weight, thinking it was fastened. By doing so he lost his balance and fell to the ground a distance of 30 feet. His wrist was broken, skull fractured and a frightful scalp wound received. He was removed to the city hospital immediately after the accident.

Mr. Schultz was thirty-five years of age and was an excellent man. He had not lived in Beloit long, but had made many friends during his residence in the city. He came here from Milwaukee where his parents live. He was a member of the O. O. U. H.

Mrs. M. J. Mulville addresses the following letter to the Beloit Free Press:

"On Jan. 14, 1902, the following article regarding the Mulville-Hart receivership matter appeared in the Beloit Daily News:

"Mrs. Anna L. Mulville today withdrew her application for a receiver for the Regal Spice Co.'s stores in Beloit and Janesville there being no cause for action, and the matters pertaining to the business being satisfactorily adjusted. G. E. Hart will continue both stores in which he has held the principal interest for several months."

"In answer to same I beg to make the following statement of facts, and ask that you will kindly publish the same in your valuable paper over my signature.

"G. E. Hart did not own a dollar in stock of either the Beloit or Janesville 'Regal Spice Co.' stores, the sole owner being M. J. Mulville and his sister, Cora M. Hart, as you will see by referring to signatures of dissolution of partnership. Not later than Jan. 5, M. J. Mulville left his home leaving a letter in which he said 'for parts unknown.' On Jan. 8, 1902, unbeknown to me he gave a bill of sale of his undivided interests in above mentioned stores to his sister, Cora M. Hart and signed articles of dissolution of partnership thereby plainly showing collusion.

"Jan. 9, 1902, I asked the court to appoint a receiver, but on the bill of sale dated, Jan. 8, 1902, coming to light, my case fell.

"This leaves me penniless, with myself and little son to support, is how the matter was 'satisfactorily adjusted' and naturally causes me to resent the attempt to whitewash the case.

"The divorce proceedings are in no way affected and will be continued. For further information address me at Janesville, Wis.

"MRS. M. J. MULVILLE."

A joint installation of the officers of the K. O. T. M. and the L. O. T. M. lodges will be held this evening at the East Side Odd Fellows' hall. All the officers of both lodges are requested to be at the hall at 7:15 o'clock sharp. Exercises are to commence at eight o'clock.

## ARE QUICK TO SEE.

Great Doctors are Quick to See and Appreciate Real Merit in New Medicines.

Stuart's Dyspepsia Tablets are a discovery of great value to the medical profession and the public. They are an unfailing specific in all cases

< of dyspepsia and disordered digestion.

Almost everybody's digestion is disordered more or less, and the commonest thing they do for it is to take some one of the many so-called blood-purifiers, which in many cases are merely strong cathartics. Such things are not needed. If the organs are in a clogged condition, they need only a little help and will right themselves. Cathartics irritate the sensitive linings of the stomach and bowels and often do more harm than good.

Purging is not what is needed. The thing to do is to put the food in condition to be readily digested and assimilated. Stuart's Digestive Tablets do this perfectly. They partly digest what is eaten and give the stomach just the help it needs. They stimulate the secretion and excretion of the digestive fluids and relieve the congested condition of the glands and membranes. They put the whole digestive system in condition to do its work. When that is done you need take no more tablets, unless you eat what does not agree with you. Then take one or two tablets—give them needed help and you will have no trouble.

It is a common sense medicine and a common sense treatment and it will cure every time. Not only cure the disease but cure the cause. Goes about it in a perfectly sensible and scientific way.

We have testimonials enough to fill a book, but don't publish many of them. However—

Mrs. E. M. Faith, of Byrd's Creek, Wis., says: "I have taken all the tablets I got of you and they have done their work well in my case, for I feel like a different person altogether. I don't doubt if I had not got them I should have been rest by this time."

H. E. Willard, Onslow, Iowa, says: "Mr. White of Canton was telling me of your Dyspepsia Tablets curing him of Dyspepsia from which he had suffered for eight years. As I am a sufferer myself I wish you to send me a package by return mail."

Phil. Brooks, Detroit, Mich., says: "Your Dyspepsia cure has worked wonders in my case. I suffered for years from dyspepsia but am now entirely cured and enjoy life as I never have before. I am glad to recommend them."

It will cost 50c. to find out just how much Stuart's Dyspepsia Tablets will help you. Try them—that's the best way to decide.

All druggists sell them. A little book on stomach diseases will be mailed free by addressing: A. Stuart Co., Marshall, Mich."

## IMPORTANT BILL STIRS SENATE

Brisk Debate Over the Proposed Creation of Department of Commerce.

LODGE OFFERS AMENDMENT.

Senator Hale Declares Measure Is Too Ambitious and Would Make Head of It Most Important Member of Cabinet—Bills Passed.

Washington, D. C., Jan. 17.—The Senate for a brief time had under consideration a bill creating a Department of Commerce, and the discussion tended to show that the measure will have to be amended in many particulars before it can receive the approval of the Senate. Serious objections were raised to the transfer to the proposed department of several important bureaus now a part of other departments of the government. When the bill to establish the Department of Commerce was called Mr. Lodge offered an amendment to section 11 of the bill providing that the Secretary of State should designate an official in his department to furnish instructions to consular officers supplied by the Secretary of Commerce and to prepare the dispatches of the consular officers for transmission to the Secretary of Commerce.

Department Too Ambitious.

The amendment aroused considerable comment, all of it being favorable to Mr. Lodge's proposition. Mr. Hale sharply criticized the bill. He said the measure so suddenly flashed upon the Senate created the largest department in the government. It did not begin in a modest way, but ransacked every department of the government for important bureaus, to dump into this new department. The new Secretary of Commerce would become the most important member of the Cabinet. He would be even a more important official than the Secretary of the Treasury, with all of his great administrative duties. Many bureaus had been included in the proposed department that have no more relation to commerce than light has to darkness. He referred particularly to the transfer to the new department of the coast and geodetic survey, and urged that if that bureau were changed at all it should be placed under the navy department. He referred to various "navies" in the several departments. This brought Senator Tillman to his feet. "I would like to add another navy to those enumerated by the Senator," he said, "that is, the army transport service. That is assuming great proportions and about it I have heard some scandal." At the instance of Mr. Teller the section providing for the transfer of the geological survey to the Department of Commerce was stricken out. Mr. Hale gave notice of an amendment providing for the transfer of the coast and geodetic survey to the Navy Department.

Bills for Money Passed. The following bills, together with a large number of private pension bills, were passed: Appropriating \$125,000 for the construction of a public building at Hammond, Ind.; appropriating \$30,000 for government expenses and floor space at the Charleston, S. C., exposition; appropriating \$4,500 for a lightsip on southeast shoal, Point au Pelee, Lake Erie; to establish storm warning signals at South Manitou Island, Lake Michigan, at a cost of \$15,000.

## BENEFITS OF THE INTERURBAN LINE

WHAT THEY HAVE DONE FOR OSHKOSH AND APPLETON.

Have Put Life and Snap Into Business Houses — Great Convenience to the Farming Settlements — Also a Great Improvement on Social Conditions.

A resident of the city of Oshkosh, who was in the city the other evening, chanced to be present at the session of the Twilight Club and was much interested in the discussion on interurban lines which was the topic of the evening. After the meeting, in conversation with a reporter, he talked freely of the manner in which his home city had been affected by its interurban lines. He said:

"At the present time the City of Oshkosh is connected by interurban lines with the cities of Neenah, Menasha and Appleton by trolley lines and a road is now in process of construction to the cities of Kaukauna and Fond du Lac.

"Interurban lines are great things and they do effect great changes in the communities through which they pass. The advantage that has accrued to the city of Oshkosh as well as to the people of the entire Fox river valley from them cannot be over estimated.

"They have put life and snap into Oshkosh business houses by providing them with all of double the amount of patronage that they formerly enjoyed. They have also caused a large increase in the number of business houses, they have increased the patrons of the doctors, the lawyers, the dentists, and of every other profession and business within the city. They not only affect the city in a business way, but from a social standpoint as well. As a result of the interurban system in the Fox valley, local prejudices have been broken down and the population of its cities as well as that of the immediate farming country have become a great homogeneous, very cosmopolitan in dress and ideas.

"The interurban system has brought the city into close touch with the adjacent smaller cities and the farming communities through which the lines pass. The people of the smaller cities of Neenah and Menasha now do full one-third of their shopping in the city of Oshkosh and they also enjoy close social relations with its people which they can indulge in at will as a result of the ease and facility of travel to and fro provided by the interurban.

"Another thing, the farmer or his wife who lives near the interurban line are no longer compelled to wait until a rainy day when the team cannot be used in the field to go to the city to do some shopping or to procure a casting to mend some broken machine. They board the car, proceed to the city, do the shopping and return home in an hour's time. You can no longer pick many of the rusties or residents of small cities out from among the throng upon the city street on account of out-of-date garments or the dust on their shoulders acquired by long drives over dusty highways.

They dress smartly as do the residents of the city and farmer sons and daughters attend the city schools and move in city social sets. Ordinarily the people of cities that are situated ten or twelve miles apart are not in very close social relations.

"They come together probably but few times within the year and then at the large social function. Under the interurban system, however, it is different, people pass back and forth between the cities frequently, many not permitting a week to pass that they do not attend a social function or call upon friends in the neighboring city. Some do so daily. A frequent custom is the giving of trolley parties. A person or persons desirous of entertaining instead of inviting their friends to their home, charter a trolley car and accompanied by their friends enjoy a pleasant excursion to the next city and return, a most delightful way to spend an evening during the extreme heat of midsummer.

"It is also a custom where a large number of a certain social set or one city are invited to a swell function at another one or are desirous of attending a funeral or other affair to charter a trolley car for the occasion as one would ordinarily hire a livery rig. Members of the different lodges of the same order are also brought in close contact.

"Events such as the installation of officers, the funeral of a member or a banquet always bringing together delegations from the various cities. In fact, so great are the changes that have taken place in the Fox Valley as a result of the interurban systems that we must now be reminded that it is composed of separate municipalities to offset the impression constantly received that is one community whose citizens' interests are common. Even in the trivial things. The citizens of Janesville can look forward to the building of trolley lines into the city as the most favorable circumstance that has occurred in the city's history."

**Closing Session County Board.**  
At the closing session of the county board yesterday afternoon, the reports of the various county committees adopted. The salary of S. B. Kenyon, poor-master, was fixed at \$450. The county clerk was allowed \$150 for clerk hire. The salaries of Superintendents David Thorne and Wm. M. Ross were fixed at \$1,000 each. The supervisor of assessment was instructed to hire deputies should the occasion demand.  
The county clerk was instructed to advertise for bids for printing 2,000 copies of the board proceedings. A vote of thanks was tendered Chairman Bear after which the board adjourned.

William H. Dougherty, who lately passed the law examination, was admitted to practice in all the courts of the state except the supreme court, by Judge Dunwiddie.

## A NARROW ESCAPE FROM ASPHYXIA

Mrs. Latilla Cunningham Encounters Deadly Fumes From the Gas Stove in Her Kitchen.

Mrs. Latilla Cunningham, who has room at 161 Madison street, was nearly asphyxiated by illuminating gas this morning.

Mrs. Cunningham has rooms in the Conger house which she rents from Mrs. Charles Yates. She cooked her own meals and had a small gas stove for this purpose.

It was from the stove that the gas was escaping both burners being turned on when she was discovered.

It is not known just how she came to turn on the gas. It is thought she got up from bed this morning to light the gas to get something ready for breakfast and turned on the gas but forgot to light the burners, and went back to bed.

Mrs. Yates noticed a strong smell of gas about the house shortly before seven o'clock this morning, and finally by located it in Mrs. Cunningham's rooms. When she opened the door the gas rushed out in great violence as the rooms were completely filled with it. As soon as she was able Mrs. Yates opened the windows and let in fresh air. She tried to arouse Mrs. Cunningham but was not able.

Dr. Pember was called and after working over her for an hour succeeded in getting her out of danger. The patrol wagon was called and she was taken to the Palmer hospital where she could have proper care.

Mrs. Cunningham is subject to spells of mental abstraction and it may have been during one of these that she turned on the gas.

The alarm of fire this noon from box 113 was caused by a broken wire at the plant of the Rock River Cotton company. The alarm came in just at a time when it fooled the firemen, citizens and heads of the department. Chief Osgood had stepped into the engine house to ring the noon bell and was just about to touch the button to ring up twelve strokes when he heard the gong begin to strike. The firemen at the West Side station thought Chief Osgood was ringing the bell and did not start until he ran out and told them to go.

At the East Side house they let the horses out as they always do but did not start until they saw the 113 on the indicator.

**Polo Game Last Evening**  
The polo game at the rink last evening between the first and second teams resulted in a victory for the first team by a score of 15 to 3. The game consisted of three fifteen minute thirds and was too much in favor of the first team to be very interesting, but it gave the first team the practice they need for their game with Racine Saturday night. For the first team Blakely made eight goals and Schaf for seven. In the second team George, Daly and Delaney each made a goal. In the second third the boys played a good game both sides scoring twice.

## INDIANS OVERRUN A SMALL TOWN

The Pottawatomies Have Taken Full Possession of Dowagiac, Mich.

### A VERY SERIOUS SITUATION.

Redskins Are Violently Excited and Openly Defy the Authorities—Gamblers Betting Natives with Liquor, to Get Money—Legal Phases of Case.

Niles, Mich., Jan. 17.—A band of nearly 400 Pottawatomie Indians has taken possession of the little town of Dowagiac, twelve miles east of here, and the inhabitants of the place are in a state of terror, fearing for their lives and property. The police force of the town has been augmented and every citizen has provided himself with a weapon of some kind. The Indians, however, are desperate because they think they have been wronged and they state that they are ready to shed blood in order to gain what they regard as their rights. Most of them are armed with guns, knives and pistols and in some manner have secured whisky. They have built bonfires in many quarters of the town and repel all attempts of the citizens to quiet them. It is feared that at any moment they may be incited by their leaders to attack a citizen and if this happens there will be a pitched battle between the redskins and the whites. The inhabitants of the village wish to avoid serious trouble, for they realize that a fight will mean the loss of many lives and the entire extinction of the tribe of Pottawatomies.

**Trouble Over Chicago Land.**  
The trouble originated over the contemplated payment of money by a Chicago syndicate to the Indians for power of attorney to press the claims of the Indians upon the land along the lake front. Attorney Robert Balus of Chicago went to Dowagiac in the morning with \$35,000, which he was to distribute among the Indians. They had been informed of his coming and were ready to meet him. The shell game men and card sharpers had also been informed and they went to Dowagiac also in order that they might win from the Indians all or most of their money. Knowing that the Indians would not have their money long if it were paid to them direct the probate judge of Cass county issued an order compelling the payment of the money to the guardians of the red men. At this the Indians grew sulky and ferocious. The chief tried to plead with the judge for the money, but it was of no avail.

For a time the Indians were ready to yield, but the rougher element of the gamblers circulated among them and prodded them on by promises and an occasional drink of whisky. The Indians were unable to secure the liquor, but the gamblers got it for them and dealt it out freely, though out of sight of the authorities. When the trouble began the police force was strengthened and then a general alarm call was sent out for all men to be ready to protect themselves and their families. All women were ordered to be kept off the streets and the Indians were told that they must get out of town or else they would be locked up. Ordinarily the Indian has a profound respect for the cells, but when the chief of police told them last night that they would be arrested they brandished knives and revolvers and defied the authorities.

**Lawyers on Both Sides.**  
All the lawyers in Cass, Berrien and Van Buren counties are in Dowagiac arguing and fighting a strenuous legal

battle. The Indians have their attorneys, and these men are pleading for the red men. Arrayed against them is strong legal talent of the three counties named, and it is probable that Attorney Balus, representing the syndicate, will have to pay the money to the guardians. All the guardians are in Dowagiac. These guardians are appointed legally and they are among the best and most wealthy citizens. There are about 350 Indians in the band, so \$35,000 would be \$300 apiece. If the syndicate succeeds in securing a clear title to the lake front property it will pay \$3,000,000 more to the Pottawatomies, the \$35,000 merely giving the syndicate a right to sue for the title.

**Mexico City Shaken.**  
City of Mexico, Jan. 17.—Four distinct shocks of earthquake shook this city at twenty minutes after 5 o'clock in the afternoon. The shocks were sharp, and buildings swayed perceptibly. Thousands of people rushed from offices and dwellings into the middle of the streets for safety, and many knelt in prayer. Telegraph poles bent like trees in a gale of wind, and the most massive buildings were shaken. There has not for a long time been so severe an earthquake here.

**Ask Direct Vote on Senators.**  
Frankfort, Ky., Jan. 17.—The Kentucky house of representatives by a unanimous vote adopted a resolution asking Congress to amend the constitution so that the United States Senators can be elected by direct vote of the people.

**Noted Harvard Professor Dead.**  
Cambridge, Mass., Jan. 17.—Alpheus Hyatt, paleontologist of Harvard and Boston universities, fell dead yesterday, having suffered a stroke of apoplexy. He was a recognized authority in paleontology.

**Blaze in a Big Spot.**

Chicago, Jan. 17.—A fire that destroyed the ticket office at the union passenger station at 11 o'clock a. m. caused a general panic among the 300 men, women and children passengers in the large waiting room surrounding the ticket office. By shutting off the escape of the railroad employees on the floor above the blaze added excitement and terror, when the employees had to flee from suffocation by climbing down ladders raised to assist them by the firemen. The total loss will amount to about \$10,000. General Ticket Agent Frank Burton estimates the loss in the ticket office at \$1,000 on the tickets, fixtures and cases. The loss on the station building is estimated at \$5,000.

**Graft Skin on Face and Body.**  
Chicago, Jan. 17.—Swayed by unselfish friendship, fifteen girls, friends of Miss Helen Peck, went to the post-graduate hospital, Wabash avenue and 21st street, ready to give their own flesh and blood to help her regain the same beautiful and smiling face, which had often encouraged them. She was terribly burned in a gasoline explosion. The operation of skin-grafting on Miss Peck at the hospital was unusual in the large surface to be covered by the skin. Her entire face, neck, arms and hands were nearly raw as the result of burns received in an explosion at her home, and it was necessary to supply all the skin to cover it.

**Woodworkers on Strike.**  
Jeffersonville, Ind., Jan. 17.—Two hundred woodworkers in the passenger department of the American Car and Foundry company's plant are on strike. The men claim they are not being paid the schedule of wages recently agreed upon with the management. The president of the woodworkers' union will arrive to-day and an effort will be made to settle the differences. If an agreement is not reached at once a general strike will be ordered, which will involve about 1,000 men.

**52 Mortgages on Same Property.**  
Pana, Ill., Jan. 17.—Ferdinand Meyers of this city was arrested in St. Louis last evening on warrants sworn out by fifty-two citizens of Pana. Meyers, it is alleged, owned horses and wagons to the value of \$350, and mortgaged this property to fifty-two residents, securing \$14,000. He then disappeared from Pana and was not located until yesterday. Meyers is twenty-five years of age and married.

**Kohlman Retires from Record-Herald.**  
Chicago, Jan. 17.—H. H. Kohlman, for many years a strong influence in journalism and national politics, retires from active newspaper work to-day. In this morning's issue of the Record-Herald the announcement of this appears. He says he has turned over the editorial direction and the business management of the paper to Frank B. Noyes, formerly of the Washington Star.

**Deschanel Again President.**  
Paris, Jan. 17.—Paul Deschanel, in resuming the presidency of the Chamber of Deputies, spoke of the great amount, labor, talent and science expended in the service of the country by the members of the chamber. He said that France would draw more profit therefrom if the chamber imposed on itself stricter discipline and improved its method of work.

**Kentucky Legislators Commend Schley.**  
Frankfort, Ky., Jan. 17.—After a spirited debate the house adopted the resolution commendatory of Admiral Schley. The Republicans opposed that part of the resolution which condemned the court of inquiry that sat in the Schley case and refused to vote when the roll was called. The seventy Democrats voted for the resolution.

# SICK AND AILING WOMEN

**Should Write to Mrs. Pinkham, Lynn, Mass., for Advice—It is Absolutely Free and Has Restored Thousands of Women to Health.**

All Letters Are Sacredly Confidential and No Names Are Published Without Special Permission of the Writer—All Letters Are Received, Opened and Answered by Women Only—During the Last 20 Years Mrs. Pinkham Has Gained a Greater Knowledge Regarding Female Ills Than Any Other Person, and is Consequently Better Qualified to Advise and Guide Sick Women.

LYDIA E. PINKHAM,  
Discoverer of Lydia E. Pinkham's  
Vegetable Compound.

## Mrs. Pinkham's Standing Invitation.

In addressing Mrs. Pinkham you are confiding your private ills to a woman—a woman whose experience in treating woman's diseases is greater than that of any living physician—male or female.

You can talk freely to a woman when it is revolting to relate your private troubles to a man—besides a man does not understand—simply because he is a man.

Many women suffer in silence and drift along from bad to worse, knowing full well that they ought to have immediate assistance, but a natural modesty impels them to shrink from exposing themselves to the questions and probably examinations of even their family physician. It is unnecessary. Without money or price you can consult a woman whose knowledge from actual experience is greater than any local physician. The following invitation is freely offered; accept it in the same spirit.

Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham at Lynn, Mass. All letters are received, opened, read and answered by women only. A woman can freely talk of her private illness to a woman; thus has been established the eternal confidence between Mrs. Pinkham and the women of America which has never been broken. Out of the vast volume of experience which she has to draw from, it is more than possible that she has gained the very knowledge that will help your case. She asks nothing in return except your good-will, and her advice has relieved thousands. Surely any woman, rich or poor, is very foolish if she does not take advantage of this generous offer.

## LYDIA E. PINKHAM'S VEGETABLE COMPOUND.

Has restored more women to health than any other medicine the druggists have ever sold—It outsells all other medicines for female ills two to one—Therefore it must be unequalled. Accept no substitute.

### Four Letters Showing the Result of Mrs. Pinkham's Advice.—Thousands More of the Same Kind Are on File in Her Office at Lynn, Mass.

"DEAR MRS. PINKHAM:—I have been for some years a great sufferer and thought I would write and explain my case to you as you had helped so many others. Menstruation is irregular and very painful. I have suffered with painful periods for ten years but the pains grow worse as I grow older.

"I suffer most with my back, lower part of abdomen and left side. I have been flowing all the month and a part of August, not constantly, but will stop for two or three days and then begin again.

"The doctor says I have misplacement of the womb. I have bearing-down pains when passing urine, and my abdomen is very badly swollen and sore. Please advise me at your earliest convenience."—Mrs. A. V. Scott, 21 Page St., Kingston, Pa. (Sept. 30, 1900.)

"DEAR MRS. PINKHAM:—When I wrote to you asking advice no one could describe my suffering. The doctors said I could not be relieved unless I had an operation performed, but thanks to you and your medicine I got along without having the dreaded operation. I have taken ten bottles of your medicine and am once more well and happy. Lydia E. Pinkham's Vegetable Compound is a fine medicine and a God-send to suffering women. I trust my letter may be the means of bringing many of my suffering sisters to accept your kind aid."—Mrs. A. V. Scott, 21 Page St., Kingston, Pa. (Jan. 30, 1901.)

"DEAR MRS. PINKHAM:—Some time ago I wrote you that my regular physician had made an examination and told me I was afflicted with a tumor in my womb. I had backache, headache, bearing-down pains, and very profuse menstruation. My limbs would ache so I could not sleep, and I was very weak and nervous. I was bloated from my head to my feet. After receiving your letter I took Lydia E. Pinkham's Vegetable Compound and Blood Purifier, and followed all the rest of your advice as near as I could, and the tumor was expelled in pieces, and I regained my natural size. I continued taking your Vegetable Compound for a while longer and felt like a new woman. I cannot thank you enough for your kind advice, and what your medicine did for me. It certainly saved my life."—Mrs. FLETCHER S. WILLIS, Vershire, Vt.

"DEAR MRS. PINKHAM:—One year ago I read a letter in a paper telling how much good one woman had derived from Lydia E. Pinkham's Vegetable Compound. I had been sick all winter and was nearly discouraged, as the medicine the doctor gave me did me no good. I had kidney complaint, leucorrhoea, itching, bearing-down feeling, and painful menstruation. I wrote to you describing my trouble and soon received an answer telling me what to do. I followed your instructions, and have taken nine bottles of Vegetable Compound, and used one package of Sanative Wash, and one box of Liver Pills. I am well now, do not have those sick spells at the monthly period, but can work all day, and that I never could do until I began taking the Compound. I cannot praise the Compound too highly. I do hope every suffering woman will learn of your remedies and be cured, as I have been. I wish all success to the Compound; it has done wonders for me and I am so thankful."—Mrs. GENIE KELLOGG, Berlin Heights, Ohio.

EMERALD GROVE.

Emerald Grove, Jan. 16.—The band from the Institute for the Blind is preparing to give a concert at the church on the night of the 31st of this month.

FANTASTIC

Stories have been written of magic mirrors in which the future was revealed. If such a thing were possible many a bright-faced bride would shrink from the revelation of herself, stripped of all her loveliness. If there is one thing which would make a woman shrink from marriage it is to see the rapid physical deterioration which comes to so many wives. The cause is generally due to womanly diseases.

Lost health and lost comeliness are restored by the use of Dr. Pierce's Favorite Prescription. It cures irregularity and dries weakening drains. It heals inflammation and ulceration, and cures female weakness.

"It is with the greatest pleasure that I tell you what Dr. Pierce's Favorite Prescription and Golden Medical Discovery have done for me," writes Mrs. Emma L. Banks, of 1022 North 7th Street, Harrisburg, Pa. "They have done me a world of good. I had female weakness for six years; sometimes would feel so badly I did not know what to do, but I found relief at last. Thanks to Dr. Pierce for his kind advice. I have this medicine still in my house and will always keep it."

If you are led to the purchase of "Favorite Prescription" because of its remarkable cures of other women, do not accept a substitute which has none of these cures to its credit.

Free. Dr. Pierce's Common Sense Medical Adviser, paper covers, is sent free on receipt of 21 one-cent stamps to pay expense of mailing only. Or for cloth-bound volume send 31 stamps. Address Dr. R. V. Pierce, Buffalo, N. Y.

## Scrofula

## THE OFFSPRING OF HEREDITARY BLOOD TAIN.

Scrofula is but a modified form of Blood Poison and Consumption. The parent who is tainted by either will see in the child the same disease manifesting itself in the form of swollen glands of the neck and throat, catarrh, weak eyes, offensive sores and abscesses and oftentimes white swelling—sure signs of Scrofula. There may be no external signs for a long time, for the disease develops slowly in some cases, but the poison is in the blood and will break out at the first favorable opportunity. S. S. S. cures this wasting, destructive disease by first purifying and building up the blood and stimulating and invigorating the whole system.

J. M. Reals, 115 Public Square, Nashville, Tenn., says: "Seven years ago my daughter fell and cut her forehead. From this wound the glands on the side of her face became swollen and burst. Some of the best doctors here and elsewhere attended her without any benefit. We decided to try S. S. S., and a few bottles cured her entirely."

SSS makes new and pure blood to nourish and strengthen the body, and is a positive and safe cure for Scrofula.

It overcomes all forms of blood poison, whether inherited or acquired, and no remedy so thoroughly and effectively cleanses the blood. If you have any blood trouble, or your child has inherited some blood taint, take S. S. S. and get the blood in good condition and prevent the disease doing further damage.

Send for our free book and write our physicians about your case. We make no charge whatever for medical advice.

## DESERTED.

A few evenings ago the question of whether or not Governor La Follette is deserving of a renomination and re-election at the hands of the republican party of Wisconsin came up for decision before the members of the Franklin Club, the leading debating club of this city.

The fact had been announced for two weeks, and every member of the club, which is largely composed of republicans, was well informed of the circumstance.

It was naturally expected, in view of the alleged "opposition" and "attacks" on the governor, so copiously disseminated by his friends all over the state, that this opportunity would be seized by those who are naturally looked upon as Mr. La Follette's friends to appear at the club on the evening of the debate and champion their chosen leader. But such was not the case. Not only were the leaders selected to take up the governor's cause absent, but most of those who pose as ardent half-breeds were exceedingly scarce also. After vainly trying to induce some one of the hundred or more present at the time to lead the governor's cause, one lone member, Attorney F. H. Hartwell, who held an administration job at Madison last winter, had sufficient pluck to acknowledge his allegiance and stand by his colors, and he was the only republican in the room to speak a word for Governor La Follette during the entire debate, which, to quote a radical organ, "lasted several hours." The roll was called, but republican after republican sat still and let the cause of the governor go by default. Comment is unnecessary. The moral is plain.—La Crosse Republican-Leader.
